

## Course ID: 12d – 3X

### Three Day – 12d Model Customisation

#### Summary:

This session is intended for advanced users and 12d managers, who wish to customise 12d Model to increase productivity and standardise employees' output.

This course is intend to be completed **over consecutive three weeks** or similar, with exercises to enable the time in training to be focused on clients outcomes. Course numbers are limited to six participants, so time can be spent with all to ensure clients have standards completed ready for installing at the end of the training.

#### Prerequisites:

A good understanding of 12d Model Software is expected for users wishing to undertake customisation training.

#### Course Contents:
